

REMARKS

In order to expedite the prosecution of the present application, the claims have been amended in order to respond to the Examiner's rejections under 35 USC 112, first paragraph. Specifically speaking, Claims 7 and 12 now require that "n" is an integer greater than or equal to 2. Support for this is clearly found in the originally filed specification. Additionally, the phrase "setting forth the maximum coefficient values" has been canceled. In light of these changes, it is respectfully submitted that the present application now is in condition for allowance. If the Examiner feels that there are any outstanding matters left to be resolved in the present application, he is respectfully requested to contact the undersigned.

Respectfully submitted,

Terryence F. Chapman
